Test workflow

1. Upload test data
2. Explore measurements
3. Review engineering metrics
4. Investigate events
5. Export reports
6. Compare two tests

Interactive dual-axis chart

Visualization detail

(•) Automatic (preserve peaks) ( ) Full resolution

Approximate maximum displayed points per channel

5000

Selected time window: 6,899 observations. Chart renders 2,356 shared time points. Statistics use every observation in the selected window. Automatic mode preserves observed per-channel extrema within time buckets; full resolution shows every recorded point.
